

City Council Introduction:

Public Hearing:

Bill No. 08-142

### FACTSHEET

TITLE: Agreement

SPONSOR:

OPPONENTS:

DEPARTMENTS/GROUPS AFFECTED:

STAFF RECOMMENDATION:

APPLICANT: Public Works & Utilities

REASON FOR LEGISLATION:

### DISCUSSION

This is an agreement with Unite to locate, install and maintain network facilities that may be shared by the City and Unite. Other exhibits may be periodically adopted which will codify the sharing arrangements for different segments at different times. The sharing will involve space in conduits whether owned by the City or Unite, the installation and provision of fibers by the parties, and the costs of the conduit placements. The initial Exhibit "A" involves allowing Unite to occupy the City's easement areas for water facilities from Lincoln to Ashland. Unite is also installing a 2-inch conduit for joint use by City and Unite. The City's share of the costs is \$261,959. This represents a significant savings for the City to connect the Ashland facilities with fiber. This exchange includes Unite giving the City up to eight (8) fibers on Unite's system to Ashland.
